Summary

Aspiring Full-Stack (MERN) Developer With Hands-On Experience In Building Modern Web Applications. Proficient In React.js, Node.js, Express.js, And MongoDB Across Frontend And Backend Development. Focused On Creating Scalable, User-Centric Solutions With Strong Problem-Solving Skills. Actively Expanding Expertise In Artificial Intelligence And Machine Learning To Drive Future Innovation And Build Intelligent, Data-Driven Solutions.

Professional Experience

Learning Internship
PALLADIUMHUB

May 2022 – Jul 2022

- Learned and adapted to office culture, enhancing professional communication and confidence.
- Gained practical Knowledge of how the website work and their functionality and development process.
- Developed technical skills in HTML, CSS, JavaScript & Bootstrap to build responsive and attractive website layouts, along with the various tasks.

MERN Stack Development
TOPS TECHNOLOGIES

2024 – Present

- Undergoing professional training to MERN Stack Development, gaining insights into real-world web development practices and industry requirements.
- Completed Modules On C, C++, DBMS, HTML, CSS, JavaScript, Bootstrap, React.js, Basics Of jQuery & Redux, Along With Backend Technologies Including Node.js, Express.js, MongoDB, And Mongoose.
- Developed confidence, improved communication skill and strengthened problem-solving abilities through project works and collaborative learning.
- Actively participated in the “Job Fest” Placement drive where the multiple companies offered the opportunities across various technology domains.

Tasks & Projects

Jay Hind Sweets – E-Commerce Web Application
Frontend Project Using React.js

Developed A Responsive And Interactive E-Commerce Website Using React.js With API Integration (Axios/JSON), Showcasing 40+ Products Across Traditional And Dry Fruit Categories. Implemented Core Features Including Cart Functionality (Add/Remove, Redirects), Dynamic Product Listings, And Admin Panels For Managing Customers, Feedback, And Products With Search, Filters, Pagination, And Status Controls. Enhanced User Experience Using Bootstrap 5, React-Bootstrap, SweetAlert, And Toastify By Integrating Real-Time Alerts, Modal Popups, And Interactive UI Elements.

Food Billing System – Console Application
C/C++ Based Project

Developed A Console-Based Food Billing System Using C/C++ To Manage Fast Food Orders With Dynamic Menu Display, Item Selection, Quantity Input, And Item-Wise Billing.

Implemented Modular Functions, Loops, And Conditional Logic To Handle Multiple Orders, Perform Accurate Bill Calculations, And Ensure Smooth User Interaction.
Designed A Structured And User-Friendly Console Interface With Proper Input Handling, Demonstrating Strong Fundamentals Of Procedural Programming And Problem-Solving.

Learnova – Full-Stack eLearning Platform
24-Hour Odoor X Gujarat Vidhyapith Hackathon 2026

Developed A Production-Grade Full-Stack eLearning Platform Enabling Course Creation, Learner Enrollment, Quiz-Based Learning, And Progress Tracking Using React.js, Node.js, Express.js, And PostgreSQL.
Implemented Secure Authentication (JWT), Role-Based Access Control (Admin/Instructor/Learner), Gamification System (Points & Badges), And Realistic Payment Flow With Automated Email Notifications Using Nodemailer (Gmail SMTP).
Designed Interactive User Interfaces With Tailwind CSS And Integrated Features Like Full-Screen Learning Player, Quiz Engine, Reporting Dashboard, And Real-Time Course Management, Enhancing Overall User Experience And System Scalability.

FleetFlow – Enterprise Fleet & Logistics Management System
Odoor X Gujarat Vidhyapith Hackathon 2026 (Virtual Round)

Developed A Full-Stack Fleet And Logistics Management Platform Enabling Real-Time Vehicle Tracking, Trip Management, Driver Allocation, And Financial Monitoring Using React.js, Node.js, Express.js, And PostgreSQL.
Implemented Role-Based Access Control, Real-Time Updates Using Socket.io, And Modules For Fleet Registry, Maintenance Logs, Expense Tracking, And Trip Lifecycle Management.
Designed Interactive Dashboards With Data Visualization (Recharts) To Track Revenue, Costs, And ROI, Along With Professional PDF Report Generation For Business Insights.

Education

LDRP Institute of Technology & Research Bachelor of Engineering (Information Technology)	2024-Present
LJ Polytechnic Diploma in Engineering (Information Technology)	2021-2024
Tops Technologies MERN Stack Development	2024-Present

Skills

- **Programming Languages** : C, C++, JavaScript
- **Frontend Development** : HTML, CSS, Bootstrap, JQuery, React, Redux, React-Bootstrap, JSX
- **Backend Development** : Node.js, Express.js, RESTful APIs, MongoDB, Mongoose
- **Tools, Libraries & Frameworks** : Git/GitHub, VS Code, Json-Server, SweetAlert, Toastify, Axios, FireBase, Antigravity, ChatGPT, Google Gemini, Claud AI
- **Soft Skills** : Leadership, Team work, Time Management, Efficient Communication
