Summary

A Passionate Bachelor Of Engineering In Information Technology Student From LDRP Institute, Currently Specializing In Web Development. Skilled In Like C/C++, DBMS, HTML, CSS, Bootstrap, JQuery, JavaScript, React.Js With A Strong Desire To Build Responsive, User-Friendly & Interactive Websites. Eager To Apply My Skills In Real-World Projects And Continuously Learn Through Internship Or Entry-Level Opportunities.

Professional Experience

Learning Internship
PALLADIUMHUB

May 2022–Jan 2022

- Learned and adapted to office culture, enhancing professional communication and confidence.
- Gained practical knowlesdge of how the website work and their functionality and development process.
- Developed technical skills in HTML, CSS, JavaScript & Bootstrap to build responsive and attractive website layouts, along with the various tasks.

MERN Stack Development
TOPS TECHNOLOGIES

2024–Present

- Undergoing professional training to MERN Stack Development, gaining insights into real-world web development practices and industry requirements.
- Completed modules on Fundamentals of C, C++ & DBMS then HTML, CSS, JavaScript, Bootstrap, React.Js and basics of JQuery & Redux.
- Developed confidence, improved communication skill and strengthened problem-solving abilities through project works and collaborative learning.
- Actively participated in the “Job Fest” Placement drive where the multiple companies offered the opportunities across various technology domains.

Tasks & Projects

Jay Hind Sweets – E-Commerce Web Project

Developed A Responsive And Interactive E-Commerce Web Project “Jay Hind Sweets” Using React, JSON, And Axios. The Project Showcases Traditional And Dry Fruit Sweets With API Integration (20+ Items In Each Category) And Includes Cart Functionality With Add/Remove Options And Page Redirects. Designed And Implemented Manage Panels For Customers, Feedback, And Products, Featuring Advanced Functionalities Like Filters, Search, Pagination, Status Toggles, And User Blocking/Unblocking. Integrated API-Driven Features Such As Product Tags (Best Seller, Premium, New), Real-Time Status Updates, And Modal Popups. Enhanced The Overall User Experience With Bootstrap 5, React-Bootstrap Alerts, SweetAlert For Interactive Dialogs, And Toastify For Notifications, Ensuring A Clean, Modern, And User-Friendly Interface.

Food Billing System In C/C++

Developed A Console-Based Food Billing System In C++ For Fast Food Order Management, Featuring A Dynamic Menu Display With Real-Time Item Selection, Quantity Input, And Item-Wise Billing For Dishes Like Pizza, Burger, Dosa, And Idli. Implemented Modular Functions For Total Bill Calculation, Applied Loop And Conditional Logic To Support Multiple Orders With Continuous User Prompting, And Integrated Input Buffer Handling Using `fflush(stdin)` To Avoid

Invalid Inputs. The System Enhanced User Experience Through Clear Console Prompts And Structured Menu Presentation While Demonstrating Strong Procedural Programming Concepts Such As Global Variables And Function-Based Design.s

boAt Website Clone using Bootstrap (Design)

Designed A Responsive Multi-Page E-Commerce Website Clone For The BoAt Brand Using HTML And Bootstrap, Featuring A Dynamic Homepage, Custom Gifting Store, Personalized Product Filters, And A Corporate Order Page With Bulk Inquiry Options. Enhanced User Experience With Consistent UI Design And Interactive Features Such As Sticky Navigation, Offcanvas Sidebar, Responsive Cards, Product Ratings, Bootstrap Icons, And Optimized Cross-Device Functionality.

ADOCMEDI Website using HTML & CSS (Design)

Designed A Multi-Page Responsive Healthcare Web Platform “ADOCMEDI” Using HTML And CSS, Featuring Doctor Search, Appointment Booking, Digital Health Record Access, And Role-Based Functionalities For Patients, Doctors, And Pharma Professionals.

Education

LDRP Institute of Technology & Research Bachelor of Engineering (Information Technology)	2024-Present
LJ Polytechnic Diploma in Engineering (Information Technology)	2021-2024
Tops Technologies MERN Stack Development	2024-Present

Skills

- Programming Languages : C, C++, JavaScript
- Web Technologies : HTML, CSS, Bootstrap, JQuery, React, Redux, React-Bootstrap, JSX
- Tools & Frameworks : Git/GitHub, VS Code, Json-Server, SweetAlert, Toastify, Axios, FireBase
- Soft Skills : Leadership, Team work, Time Management, Efficient Communication
